

The *Standard*, one of the leading democratic journals, openly rebukes Bartine's action in Congress when he voted with the Democrats rather than misrepresent his constituents by voting for a milk and water silver measure. It says: Representative Bartine voted with the Democrats several times last week and, strange as it may seem, the fact that he did so may give him the Republican nomination for Congress. To this complexion has it come at last, and all the machine politicians and party organs in the State cannot disprove it, that a Republican Representative in the 11th year of the Independence of the United States, by voting against the enforcement of the despotic rules which his party adopted to silence the minority in Congress and for the adoption of which his own vote is recorded, has increased his chances for being renominated for Congress at least 50 per cent.

**FRESH MEAT BUSINESS.**—A San Francisco paper says that Miller & Lux, the Southern Pacific Company and Philip D. Armour, of Chicago, are preparing plans for the erection in or near San Francisco of a million-dollar slaughterhouse, packing house and cold storage house combined, which will be of sufficient size to supply not only the Pacific Coast with dressed and packed meat, but is to reach out for business in British Columbia, and wherever there is a prospect of a market. The new company has two separate plans. It is proposed in the first place to supply the coast with fresh meat by means of cold storage, while the second branch of the business will be the packing of beef and pork on the same scale and plan as it is done East. The company may be as large as it can be and as aspiring as is possible, but our foothill beef must not be shipped there to be slaughtered and then be sent back to us to be sold to consumers. We already have too much of the sending away of raw materials and getting the same thing back after being manufactured. We can stand sending away hides and buying them back in the shape of leather made into shoes, but we insist on home made fresh meats.

**Teller's Silver Talk.**  
Teller in his speech to the Senate on the silver bill, talked straight from the shoulder. He questioned the accuracy of Sherman's statement and said: "It would require an annual increase of \$44,000,000 of currency to meet the annual increase of population. A man who stood before the Senate arguing for a single standard was either dishonest or ignorant and had no right to represent the interests of the American people. Bimetallism had its worst enemy in the Treasury Department, and what the people have suffered has been at the door of the Administration. But there was no feeling favorable to bimetallism in high places, and would not be while Wall street could influence political parties."

**Why He Skipped.**  
It has been reported that the Chairman of the Democratic County Committee had skipped out with all the funds of the committee, but upon closest investigation it turns out that the Democratic committee had no funds, they having been all spent at the last election.—*Sentinel*.  
It is reported over this way that the Chairman skipped out to escape the importunities of those who held claims against the committee for "work and labor performed" at the last general election.

A gentleman remarked in the *Journal* office yesterday that some of the western Congressmen who voted against free coinage, upon their return to their constituents, would find themselves in a boy's fix who while fooling around the heels of a mule was kicked in the face. "Father," exclaimed the suffering and disfigured youth, "will I ever get over this, will I ever be the same boy again?" "Yes my son," replied the affectionate parent, "You will get over it and you will be the same boy again. You will not be as pretty as you were but you will have a d—d sight more sense."—*Journal*.

Job Sternberg announces to his old customers that he will return to Carson June 16th, and continue in his old line of business, to be located in the old Theatre building. j11 tf \*
